

The USS Liberty Memorial Public Library of Grafton, Wisconsin, is seeking companies who may be interested in installing a new HVAC system for the main level of the library. The system will need to serve 12,500 square feet. Work will include, but is not limited to, the installation of a new air handler, air conditioning compressors, a controller, and all associated piping. The library does not want any proprietary equipment installed. It must be equipment that can be serviced by most any HVAC contractor. Trane and Carrier equipment are preferred. The proposal should be a full turnkey proposal. Desired date to begin work is late March/early April 2018. A mandatory pre-bid meeting will be held Wednesday, August 30<sup>th</sup>, at 9am. It will be held at the library, at 1620 11<sup>th</sup> Avenue, Grafton. Deadline for turning in bids will be Tuesday, September 26, at 5pm.
