

GRAFTON
QUALITY LIFE. NATURALLY.

Grafton Parks and Recreation COVID-19 Mitigation Plan

To protect the health of participants the following changes have been made:

- In accordance with CDC and Washington/Ozaukee Health Department guidelines, masks are optional but this is subject to change at any time based on Ozaukee County's COVID-19 Community Level.
- Please be respectful of those who choose to continue wearing a mask and be cognizant of other's personal space. It is important that we be very mindful that not everyone will be comfortable with these changes.
- Participants may register for programs online or by phone. A waiting list will be started after a program has reached the maximum number of participants. If a vacancy occurs, participants will be called in the order of registration to register.
- Parents will be emailed a reminder before the program starts to include, "Please do not attend if your child has any COVID-19 related symptoms."
- Participants are not to arrive more than 10 minutes before the start of the activity and must leave immediately following the activity.
- Attendance will be taken at the start of each program to be able to contact individuals in the event of an exposure or incident.
- Participants should bring a water bottle with their name clearly labeled.
- General physical interaction including "high fives", team huddles, or handshakes is discouraged.
- Sanitizer and PPE products are available for customers and staff.
- Signage on CDC/Health Department practices will be posted.
- Recreation equipment will be sanitized after use.
- Guidelines may change based on evolving medical and health information, as well as local, state, or federal guidelines.

Recreation Programs on Grafton School District Property

- Effective Wednesday, June 9, 2021 masks are optional.
- Spectators will be allowed in the gym in accordance with the school district's guidelines.

Cooperative Recreation Programs

Some of our programs are offered through other Parks and Recreation Departments. In that case, policies may be different and will be shared prior to the start of the program.

Response to COVID-19 Exposure / Infection Report

Participants who:

- Have tested positive for COVID-19
- Have had direct exposure with an individual who has tested positive (Exposure defined by the CDC's 6-15 rule: within 6 FEET for a cumulative 15 MINUTES)
- Are without diagnosis but appear to have symptoms upon arrival
- Become sick during the day

Said participant will immediately become separated, sent home, and requested to seek medical attention. Grafton Parks and Recreation will contact the Grafton School District office if the activity occurs on school property.

Notification Process to Staff and Participants

If a positive case of COVID-19 is identified within a recreation program, management will notify all program staff and program participants in an email with the following language:

“An individual involved with the (insert program name here) has tested positive for COVID-19. The individual has been instructed to stay home and will not return to the program until 5 days have passed and the individual has been fever-free for 24 hours without the use of fever-reducing medication and otherwise symptom-free of COVID-19.”

Isolation

People who are confirmed to have COVID-19 or are showing symptoms of COVID-19 need to isolate regardless of their vaccination status. This includes:

- People who have a positive viral test for COVID-19, regardless of whether or not they have symptoms
- People with symptoms of COVID-19, including people who are awaiting test results or have not been tested. People with symptoms should isolate even if they do not know if they have been in close contact with someone with COVID-19.

Calculating Isolation

- Day 0 is your first day of symptoms or a positive viral test, whichever occurs first.
- Day 1 is the first full day after your symptoms developed or your test specimen was collected, whichever occurs first.

Scenario	Isolation Plan	Return to Work	Vital Precautions
<p>Tested positive for COVID-19 -or- Symptomatic, regardless of vaccination status</p>	<ul style="list-style-type: none"> • 5 day isolation in specific "sick room," away from others within your home • Wear a well-fitted mask around others within your home in the event of momentary contact 	<ul style="list-style-type: none"> • <u>Symptomatic</u>: end isolation after 5 full days if fever free for 24 hours without use of medication AND other symptoms are improving • <u>Asymptomatic</u>: end isolation after at least 5 full days after your positive test • <u>Severely Ill with COVID-19</u>: Isolate for at least 10 full days. Consult your doctor before ending isolation 	<ul style="list-style-type: none"> • Wear a well-fitted mask for 10 full days any time you are around others inside your home or in public. • Do NOT go to places where you are unable to wear a mask. • Avoid travel • Avoid being around others who are at high risk of contraction

Quarantine

Senior Center participants potentially exposed based upon the 6-15-48 rule may be instructed to quarantine.

If you had close contact with someone with COVID-19 and you are in one of the following groups, you do not need to quarantine

- You are fully vaccinated
- You had confirmed COVID-19 within the last 90 days (tested positive, completed quarantine, recovered, and have since returned to work)

Calculating Quarantine

- The date of your exposure is considered day 0.
- Day 1 is the first full day after your last contact with a person who has COVID-19

Scenario	Quarantine Plan	Return to Work	Vital Precautions
Exposed to COVID-19 -and- NOT fully vaccinated**	<ul style="list-style-type: none"> • 5 day quarantine • Wear a well-fitted mask around others within your home • Get tested at least 5 days after your final date of exposure, even if you remain asymptomatic 	<ul style="list-style-type: none"> • If symptoms have improved you may return to work on day 6 with active use of a well-fitted facemask. • Monitor symptoms through day 10 • If you test positive or develop symptoms isolate immediately • If you haven't already, Get Tested • Stay home until you know the results • Wear a well-fitted mask around others within your home 	<ul style="list-style-type: none"> • Wear a well-fitted mask for 10 full days any time you are around others inside your home or in public. • Do NOT go to places where you are unable to wear a mask. • Avoid travel • Avoid being around others who are at high risk of contraction
Exposed to COVID-19 -and- Fully vaccinated*	<ul style="list-style-type: none"> • No quarantine • Get tested at least 5 days after your final date of exposure, even if you remain asymptomatic 	<ul style="list-style-type: none"> • No interruption to work if asymptomatic • Monitor symptoms through day 10 • If you develop symptoms isolate immediately and get tested. • Stay home until you know the results • Wear a well-fitted mask around others within your home 	<ul style="list-style-type: none"> • Wear a well-fitted mask for 10 full days any time you are around others inside your home or in public. • Do NOT go to places where you are unable to wear a mask. • Avoid travel • Avoid being around others who are at high risk of contraction
Exposed to COVID-19 -and- Tested positive for COVID-19	<ul style="list-style-type: none"> • No quarantine unless symptoms develop 	<ul style="list-style-type: none"> • No interruption to work if asymptomatic • Monitor symptoms through day 10 	<ul style="list-style-type: none"> • Wear a well-fitted mask for 10 full days any time you are around others

<p>within the past 90 days</p>		<ul style="list-style-type: none"> • If you develop symptoms isolate immediately and get tested. • Stay home until you know the results • Wear a well-fitted mask around others within your home 	<p>inside your home or in public.</p> <ul style="list-style-type: none"> • Do NOT go to places where you are unable to wear a mask. • Avoid travel • Avoid being around others who are at high risk of contraction
---------------------------------------	--	---	---

*Participants are considered fully vaccinated for COVID-19:

- ≥2 weeks after they have received the second dose in a 2-dose series (Comirnaty, Pfizer-BioNTech, or Moderna) until 6 months post vaccination. If ≥6 months post vaccination a participant is considered fully vaccinated if they have obtained a booster shot (Comirnaty, Pfizer-BioNTech, or Moderna).
- ≥2 weeks after they have received a single-dose vaccine (Johnson & Johnson/Janssen) until 2 months post vaccination. If ≥2 months post vaccination a participant is considered fully vaccinated if they have obtained a booster shot (Johnson & Johnson/Janssen, Comirnaty, Pfizer-BioNTech or Moderna).
- Participants who are vaccinated but fail to meet the exact criteria stated above will be considered unvaccinated for the purposes stated within this document.

**Participants are considered unvaccinated for COVID-19:

- If they have had zero doses of Comirnaty, Pfizer-BioNTech, Moderna, or Johnson & Johnson/Janssen
- If they have had one dose of Comirnaty, Pfizer-BioNTech, or Moderna
- <2 weeks after they have received the second dose in a 2 dose series (Comirnaty, Pfizer-BioNTech, or Moderna)
- <2 weeks after they have received a single dose vaccine (Johnson & Johnson/Janssen)
- ≥6 months after receiving final dose of Comirnaty, Pfizer-BioNTech, or Moderna, without receiving additional booster (Comirnaty, Pfizer-BioNTech, or Moderna)
- ≥2 months after receiving Johnson & Johnson/Janssen vaccine, without receiving additional booster (Johnson & Johnson/Janssen, Comirnaty, Pfizer-BioNTech, or Moderna).
